## Have Hens Lay Gold.

It is simply wasting an opportunity to fail to feed

### BOLES' OZARK POULTRY FOOD.

Eggs are high and are going to stay high—are more likely to go higher than lower. Whether your hens lay or not depends on whether you give them egg-making materials. OZARK POULTRY FOOD supplies the material and also builds up the vitality of your fowls.

It is policy to feed it all the year around but especially so right now. Will increase your poultry profits from two to three hundred per cent.

Per 2-pound Package, 25c.

### It Sets the Style!

What do we mean when we say that the styles of most of the shoes for women originate with the "Queen Quality" Shoe?

Simply this. The "Queen Quality" is, and always has been a LEADER. It gets up its own original patterns at great expense and has established a reputation for style and beauty of its creations. Other makers are content to await their appearance, and then copy them as closely as possible.
